

# WISE 2010: Women's Institute in Summer Enrichment

Sponsored by the Team for Research in Ubiquitous Secure Technology (TRUST)

June 21<sup>st</sup> through 24<sup>th</sup>, 2010: Vanderbilt University, Nashville, TN

## Program Description

WISE is a one-week residential summer program on the Vanderbilt University campus that brings together graduate students, post-doctoral fellows, and professors from all disciplines that are interested in Ubiquitous Secure Technology and the social, political, and economical ramifications that are associated with this technology.

We are inviting scholars who are willing to share their knowledge, experience and skills with women faculty and graduate students in the various computer science, electrical engineering, and civil engineering disciplines associated with sensing systems for critical infrastructure, with an emphasis on the security and privacy issues that arise from the use of sensing systems in public places.

Topics may include but are not limited to:

Electronic Medical Records and Health Record Portals \* Secure Sensor Networking \* Sensor Information Processing \* Engineering, Maintenance, and Security of Critical Infrastructure \* Public Surveillance, Privacy, and the 4th Amendment \* Rights and responsibilities of data, data owners and data users
